

Teton County's Low Risk Phase

What does **YELLOW** mean and what can you do?

Teton County Health Department has developed a color-coded public health guidance system to provide actions our community members can take to decrease the spread of COVID-19.

Gather safely.

During family dinners and small social gatherings, please continue to practice everyday preventive actions.

Wear masks when less than 6 feet apart from people or indoors, host your gatherings outside when possible, and stay home if you are sick.

Space out at work.

In-person meetings following appropriate physical distancing and mask wearing. Sanitize high traffic and communal areas daily.

Avoid crowded spaces.

Avoid congested indoor spaces. Such places are safer if everyone is wearing a mask and there's enough space to stay six feet apart.

Travel with caution.

Avoid traveling to areas with high transmission. Remember to test and self-monitor for symptoms after returning home.

Socialization precautions.

When participating in social activities, limit number of households and group size. Those who are symptomatic should stay home.

Take extra precautions when running errands.

While running errands, choose alternative times or days to avoid crowded establishments.

Keep your surfaces clean.

Routinely disinfect high touch surfaces.

Limit contact with high risk individuals.

Limit visits to high risk individuals. Take extra precautions when visiting.

Everyday preventative measures that can decrease risk, when combined with other recommendations

Stay home.

Stay home when sick, even with mild symptoms. Cover coughs or sneezes by using your elbow or sleeve, not your hands.

Wear a mask.

Always wear a dry mask with multiple layers in public.

Keep your distance.

Maintain at least a 6-foot distance from others when in public, even when wearing a mask.

Wash your hands regularly.

Wash your hands with soap and water for at least 20 seconds and use hand sanitizer when soap and water are not available.
