

TETON COUNTY HEALTH DEPARTMENT

ANNUAL REPORT
JULY 1, 2021 – JUNE 30, 2022

WELCOME

NOTE FROM THE DIRECTOR

Dear Community Member,

Year after year the Health Department continues to see an increase for services from the community as more individuals qualify for our services. Increases in cost of living and life stressors along with growth in the community and an increase in seasonal staff all play a part in the demand for our services. Open positions this fiscal year made it challenging to be able to serve the community at the level they are accustomed to when the Department is fully staffed. During this fiscal year, the Health Department continued to maintain a community response to the COVID-19 pandemic with our COVID-19 staff.

Our goal this next fiscal year, in addition to serving our community, is to rebuild our work culture after multiple years of the COVID-19 pandemic and staff turnover.

We want to thank the Teton District Board of Health and the Board of County Commissioners for their continued support of the work the Health Department staff does to serve our community. We strive for fiscal responsibility by using grant opportunities and the collection of fees for service to offset our operational costs. We look forward to continuing to serve our community to the highest level.

Jodie Pond, MPH, MCCHES®
Director of Health
Teton County Health Department

HEALTH DEPARTMENT STAFF

ADMINISTRATION:

Jodie Pond, MPH, MCCHS,
Director of Health

Carol Chappelle, Accounting Specialist

COMMUNITY PREVENTION:

Beverly Shore, Community Prevention
Coordinator

COVID-19 RESPONSE:

Andi Gordon, MPH, Isolate and
Trace Coordinator

Ashley Cassat, MPH,
Public Health Advisor (end 3/22)

Elissa Gramling, Logistics Coordinator
(start 1/22)

Marta Iwaseczko, RN, Vaccine Clinic
Lead (end 2/22; moved to full-time
Public Health Nurse)

McKinnley Cox, Public Health Advisor

Melinda Lee, MPH, Epidemiologist
(end 12/21)

Shane Yu, MPH, REHS, Epidemiologist
(started 12/21; became contract
in 5/22)

Stuart Agnew, Vaccine Coordinator,
(end 5/22; moved to Community
Health Outreach Coordinator)

Zeenie Scholz, COVID-19
Administrative Assistant (start 1/22)

ENVIRONMENTAL HEALTH:

Sara Budge, REHS, Environmental
Health Supervisor

Anna Day, REHS, Environmental
Health Specialist (end 8/21)

Brody Wallace, Environmental
Health Specialist

Caleb Raney, Environmental
Health Specialist (end 4/22)

Cassie Williams, Environmental
Health Specialist

Kat Bratz, Environmental
Health Administrative Assistant

Stewart Wood, Environmental Health
Specialist (start 4/22; end 6/22)

PUBLIC HEALTH EMERGENCY PREPAREDNESS AND RESPONSE:

Rachael Wheeler, MPH,
Public Health Response Coordinator

PUBLIC HEALTH NURSING:

Janet Garland, RN, BSN,
Public Health Nurse Manager

Chelsey Peters, RN, BSN,
Public Health Nurse

Hannah Kennedy, RN,
Public Health Nurse

Jenny Barbera, RN, BSN,
Maternal and Child Health Coordinator,
Public Health Nurse

Jhala French, RN, Public Health Nurse

Kathryn Roberts, Sexual Health
Outreach Coordinator (end 9/21)

Kristy Bruner, RN, BSN,
Public Health Nurse (end 5/22)

Marilu Hernandez, Medical
Administrative Assistant

Marta Iwaseczko, RN,
Public Health Nurse (start 2/22)

Maurene Gustafson, RN,
Public Health Nurse

Nancy Frost, Billing Clerk (end 4/22)

Odalis Avila Ramirez,
Patient Registration Clerk (end 3/22;
promoted to Community Health
Worker in 3/22)

Rose Linville, Sexual Health Outreach
Coordinator (start 9/21)

Sandra Marshall-Goodson, RN, BSN,
Communicable Disease Coordinator,
Public Health Nurse

Sarah Glawe, RN, BSN,
Public Health Nurse (start 3/22)

COUNTY HEALTH OFFICER:

Travis Riddell, MD, MPH

HEALTH DEPARTMENT PROGRAMS AND SERVICES

Administration

The Teton County Health Department has a variety of services and programs designed to protect the health and safety of county residents. Programs and services are delivered using the Core Functions and Essential Services of Public Health as a framework.

SERVICES

- Increase efficiencies and reduce duplication of services through defining the local public health system
- Partnership development and coordination to ensure that the core functions and essential public health services are being delivered to the residents and visitors of Teton County
- Support a process of quality improvement

Community Health

Community Health programs address a wide variety of health promotion and disease prevention issues including chronic disease, HIV/STI (sexually transmitted infections), other infectious diseases, injury, adolescent health, reproductive health, immunization, tobacco cessation, primary care, and mental health.

PROGRAMS

- Community Education Campaigns
- Community Health Improvement Plan
- Community Health Needs Assessment (Mobilizing for Action through Planning and Partnership, MAPP)
- Community Health Outreach Program
- Community Health Outreach Workers
- Network of Care — an online resource for human services and community health indicators

rams

Community Prevention

The Community Prevention Program promotes evidence-based strategies, education, outreach, and trainings to prevent suicide and reduce the problematic use of alcohol, tobacco, and other drugs. The prioritized areas of concern are suicide, tobacco, underage drinking and marijuana use, adult overconsumption, and opioids and other drugs.

PROGRAMS

- Community Partnerships
- Community Prevention Coalition of Teton County (CPCTC)
- Community Trainings
- Education and Outreach
- Grants to Community-Based Organizations to Address the Areas of Concern
- Media Awareness Campaigns
- Suicide Prevention Subcommittee

Emergency Preparedness and Response

The Public Health Emergency Preparedness and Response Program plans for early detection and rapid response to biological or chemical events, infectious disease outbreaks, and natural disasters to prevent and mitigate illness and injuries to the residents of Teton County.

PROGRAMS

- Community Partnerships
- COVID-19 Response
- Emergency Response/Preparedness Planning
- Emergency Response Training
- Outbreak Investigation
- Public Information and Warning
- Strategic National Stockpile Program

Environmental Health

Environmental Health provides public health protection and education through a variety of programs. In addition to routine inspections of food establishments, recreational water facilities, and body art establishments and practitioners, Environmental Health is focused on educating the community by providing classes and educational materials. Classes provided by the Division include pool operator training and food safety manager training. Environmental Health also acts as a resource for drinking water quality, indoor air quality, lead poisoning, radon testing, and other general environmental health hazards.

PROGRAMS

- Air Quality – Indoor Mold, Smoke
- Body Art Inspections
- Food Service Inspections
- Pool/Spa/Food Classes and Community Education
- Plan Reviews
- Pool/Spa Inspections
- Radon Testing
- Water Quality and Testing

Nursing and Clinical Services

Public Health Nursing provides client-centered quality care and services at the individual, family, and community levels in a culturally competent manner. Programs include: Communicable Disease, Sexual and Reproductive Health, Immunization and Laboratory Services, Maternal and Child Health, and Outreach Education and programming.

PROGRAMS

- Disease Surveillance and Reporting
- Health Education and Outreach
- HIV and PrEP Case Management
- HIV/STI Counseling, Testing, and Prevention
- Immunizations and Clinic Services
- Long-Term Care Assessments
- Maternal and Child Health Services (Prenatal and Postpartum Home Visiting Program and Children's Special Health)
- Sexual and Reproductive Health Clinics
- Sharps and Medication Disposal
- TB Testing & Direct Observed Therapy

rams

County Health Officer

The County Health Officer is a licensed medical provider in the State of Wyoming appointed by the Teton District Board of Health with approval from the Board of County Commissioners to serve Teton County.

DUTIES

- Assists with Emergency Preparedness Operations
- Enforces Public Health Laws and Regulations
- Promotes the Health of Teton County Citizens
- Serves as the Medical Director for the Teton County Health Department

INITIATIVES

- COVID-19 Guidance
- Updating Food Code
- Water Quality

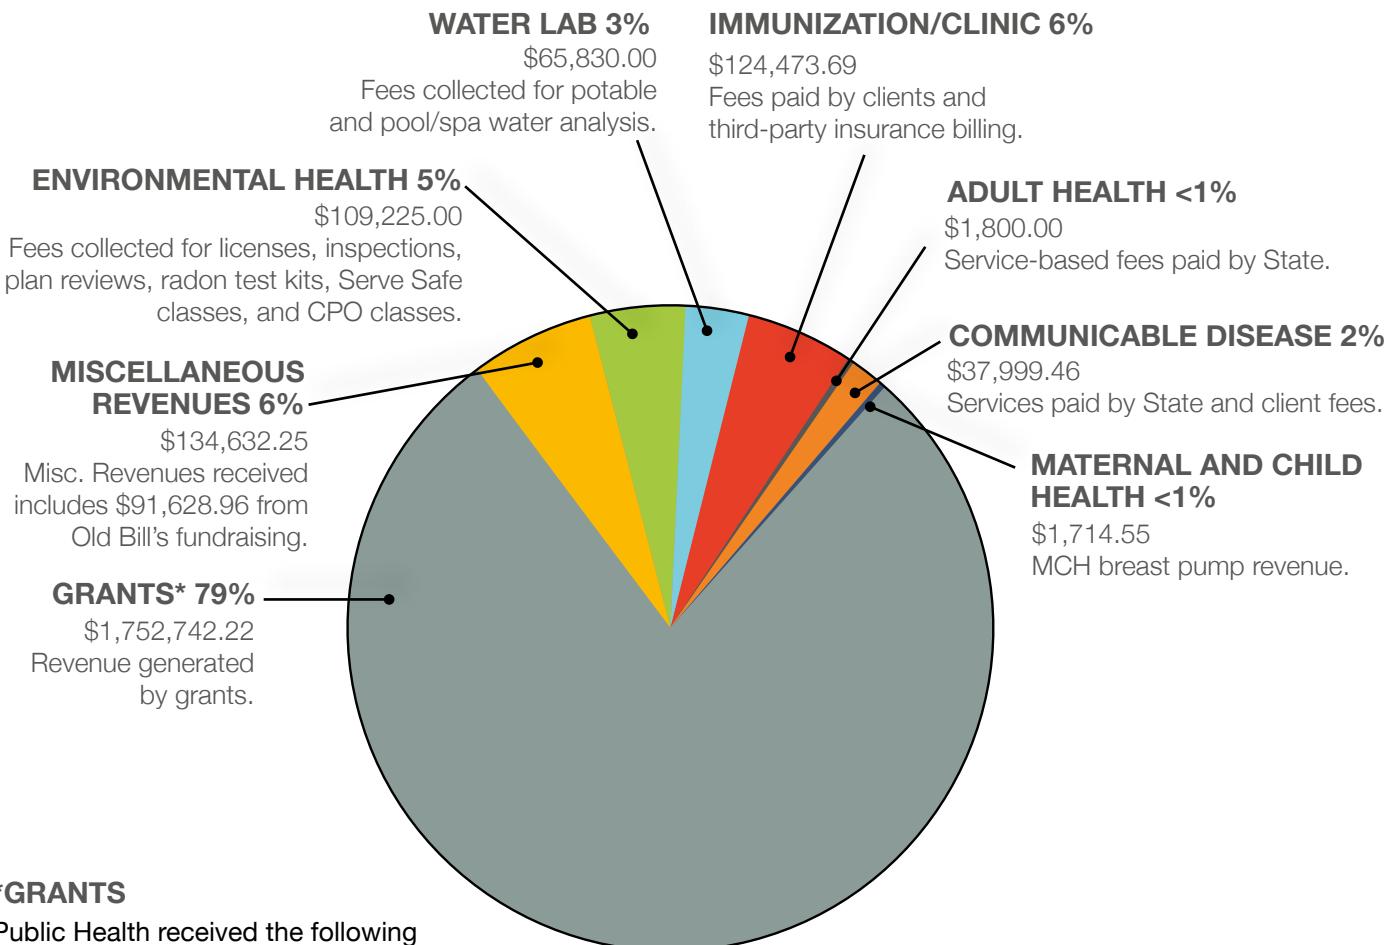

Teton District Board of Health

To assist, support, and advise the Health Department to implement the 10 essential services of Public Health.

FINANCIALS

INCOME:

The overall revenue, including grants, was \$2,228,417.17 this Fiscal Year. This represents a decrease from the previous Fiscal Year and is attributed to reduced COVID-19 Grand revenue. Other general revenue from services increased, partially offsetting this loss.

*GRANTS

Public Health received the following grants/contracts revenue this Fiscal Year:

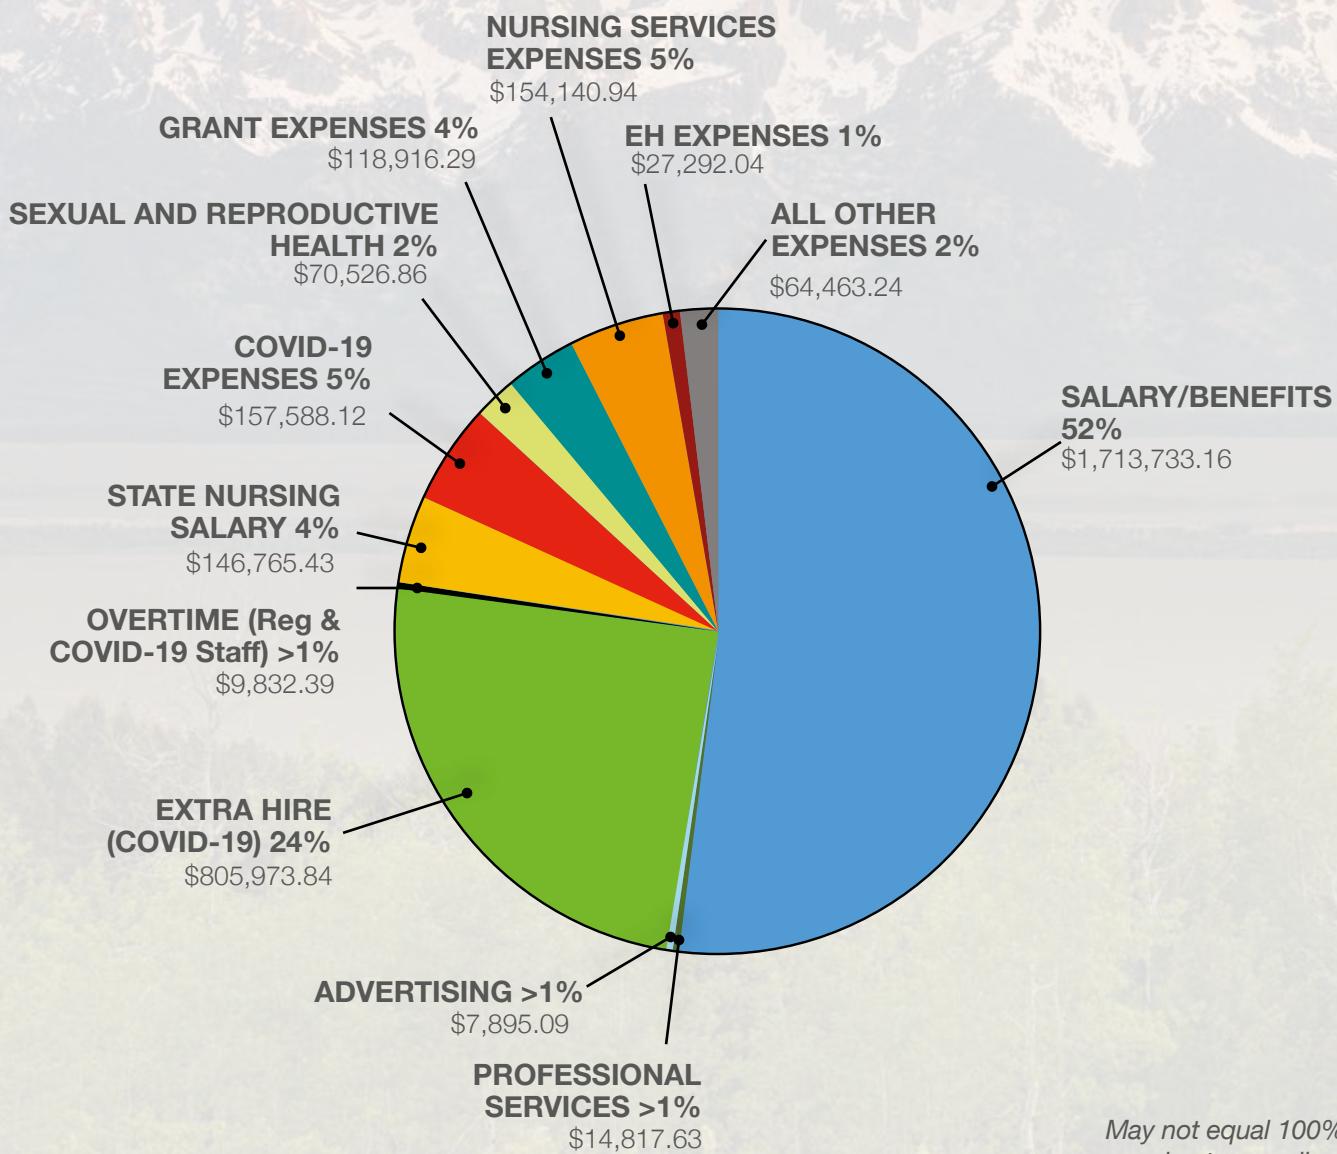

1. Maternal and Child Health (MCH) Grant: \$116,263.32
2. Temporary Assistance for Needy Families (TANF) Grant: \$103,493.39
3. Public Health Emergency Preparedness and Response Grant: \$84,505.53
4. COVID-19 CDC Vaccine Grants: \$498,021.73
5. COVID-19 CDC I/T/T Grants: \$614,751.21
6. County Health Officer Emergency Preparedness and Response Contract: \$9,600.00
7. Community Prevention Grant: \$83,472.61
8. Communicable Disease Grant \$242,634.43

*All grants, except item 6, received payments in FY '23 for FY '22 and those payments are not included in the revenue amount above.

FINANCIALS

EXPENSES:

The overall expenses this Fiscal Year were \$3,291,945.03. This represented a decrease from last Fiscal Year of \$1,302,198.79. The majority of this decrease is reflected in the decrease of expenses related to COVID-19 (Extra Hire Salaries/Benefits, Overtime, and Supplies), while most other expense categories increased slightly from the last Fiscal Year due to returning to full services. All COVID-19 expenses were reimbursed through federal grant funding or donations from the Community Foundation of Jackson Hole.

*May not equal 100%
due to rounding.*

COMMUNITY OUTREACH

Community Prevention Program:

- Drug Take Back Program – 103 pounds of expired and unused prescription medicine collected and safely disposed of during two Drug Take Back Days
- Prevention and Wellbeing Party in the Park event focusing on community alternatives to alcohol
- safeTALK – Suicide Alertness for Everyone training, 32 community members participated, as well as a training day with Grand Teton National Park employees and interns
- Crisis Intervention Training (CIT) – 38 law enforcement officers completed 40 hours of training
- Training for Intervention Procedures (TiPS) – 86 servers certified at eight Responsible Alcohol Server Trainings earned a certification
- Mental Health First Aid – Taught to 28 adult community members
- Too Good For Drugs – 990 4th - 12th graders received prevention curricula, consisting of mitigating risk factors and enhancing protective factors related to tobacco, alcohol, marijuana, opioids, and other drug use
- Booth at People's Market to promote community prevention services relating to suicide, tobacco, alcohol, marijuana, opioids, and other drug use

safeTALK

Empowering everyone to make a difference.

Saturday, June 11
9:00 AM - 1:00 pm
460 E. Pearl

Make a connection and help save a life. Studies show that participants gain confidence:

- Asking people about suicide directly
- Connecting them to life-saving resources
- Keeping them safe until those resources take over

To inquire or register, call 307-732-8495 or email beverly.shore@wy.gov

JUST THE FACTS - VAPING

WHAT DO VAPING DEVICES LOOK LIKE?

Some devices are made to look like regular cigarettes or pipes. Others resemble pens, USB sticks and other everyday items.

SIGNS YOUR CHILD MAY BE VAPING

- Presence of vaping products/equipment
- Unusual online purchases
- Faint scents of flavorings (bubblegum, chocolate cake)
- Increased thirst or nosebleeds
- Decreased caffeine use
- Appearance/behavior changes

WHAT IS INSIDE A VAPE?

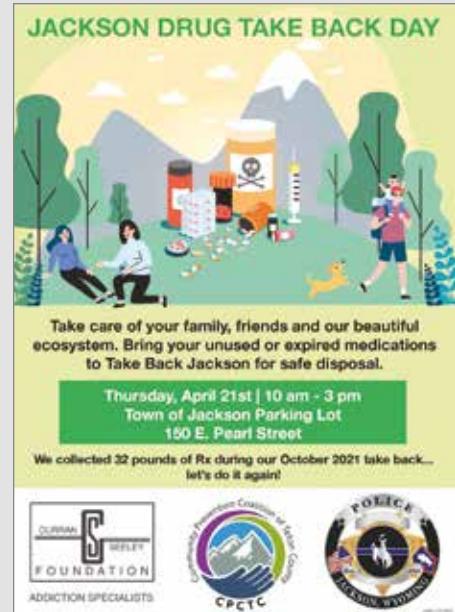

The aerosol that users breathe from the device and exhale can contain harmful and potentially harmful substances:

- Heavy Metals
- Ultratine Particles
- Nicotine
- Volatile Organic Compounds
- Flavoring such as Diacetyl
- Cancer Causing Chemicals

Sexual and Reproductive Health:

- Pride STI testing event – 19 people tested and provided with additional safe sex materials and information
- Welcome to Jackson Hole, a workforce resource event. Provided information on sexual and reproductive health resources, local, and national mental health needs
- Sexual health, STIs, and birth control method classes offered to all local high schools. 255 students received direct instruction from health department staff and nurses
- Parks and Recreation event providing information on sexual and reproductive health services at Teton County Health Department
- Jackson Lake Lodge employee event providing local health resources including Teton County Health Department services
- Prom Dress Rugby providing information on sexual and reproductive health services and advertising free Pride testing event

Other Outreach:

- Grand Teton National Park event providing resources on sexual and reproductive health, COVID-19, and community prevention
- Two lead screening events testing 41 children for lead and hemoglobin levels

- Senior Flu Clinics at the Senior Center of Jackson Hole providing 259 flu shots
- Other Outlying Flu Clinics include the Teton County School District and one mobile clinic day going around the community

STD/STI testing window periods

How long it will take for a test to be able to detect an infection?

Chlamydia	2 weeks
Gonorrhea	2 weeks
Syphilis	4-6 weeks
HIV	3 months
Hepatitis C	3-6 months

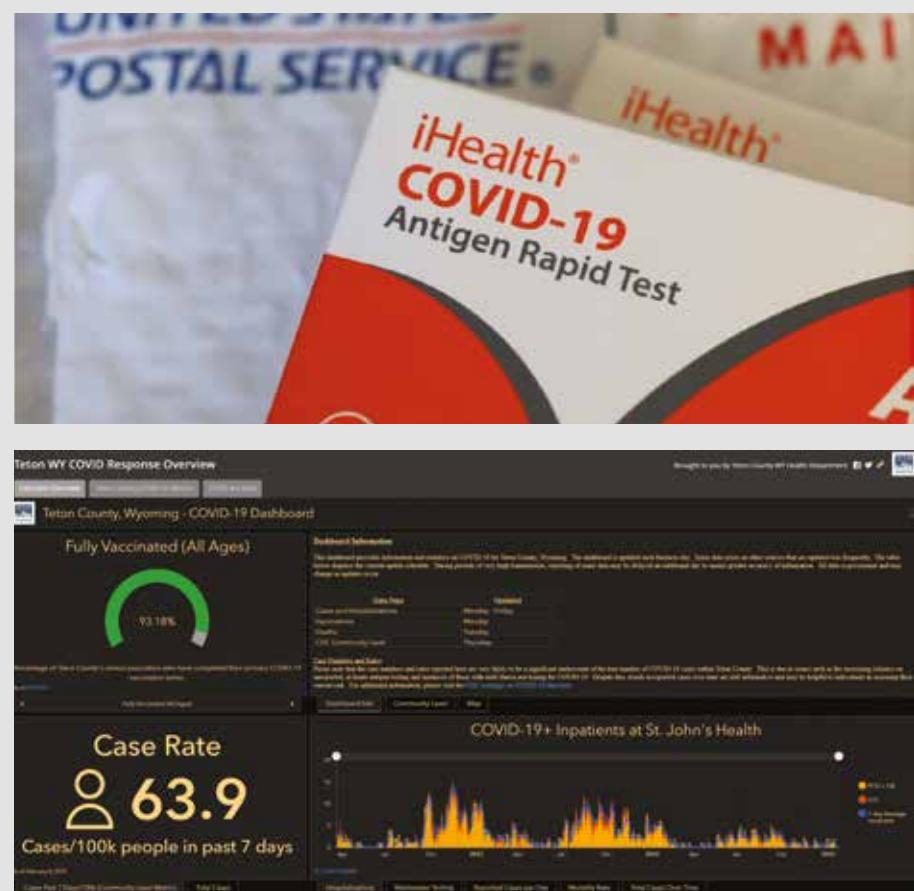

COVID-19

response

COVID-19 Response Focused on 6 Areas:

- Business Liaison
- Epidemiology
- Isolate and Trace
- Public Information
- Statistics
- Testing and Triage
- Vaccination

The COVID-19 division was built to help serve the entire community in Teton County including its workforce, residents, visitors, and commuters. Specific focus was made on those at the greatest risk for severe COVID-19 disease including those over 65, non-native English speakers, uninsured individuals, and underinsured individuals. The COVID-19 team worked with community organizations that serve these groups to make sure information on testing, vaccine, isolation, quarantine, treatment, and more were up to date.

In this Fiscal Year we were able to reduce our COVID-19 response staff since the throughput at our COVID-19 vaccine clinics was more manageable and the calls received at the COVID-19 Hotline decreased. In Fiscal Year '21 - '22 we hired 20 employees; 44 employees ended their employment on the response team. We maintained a core group of 16 response employees and four contracted individuals.

Our 2022 NACo (National Association of Counties) Achievement Award highlighted and thanked the countless volunteers who dedicated their time to helping throughout our COVID-19 efforts.

Teton County COVID-19 Hotline

A call center was established to answer questions from the community beginning January 2020 through May 2021 and August 2021 through February 2022. A total of 133 volunteers worked 2,064 hours answering calls and supporting our community members. During the Omicron surge in December 2021 and January 2022, the hotline was receiving between 150 - 200 calls daily.

onse

Case Investigation:

- A total of 9,073 cases occurred and were investigated from July 1, 2021 – June 30, 2022.

COVID-19 Vaccinations:

The START Bus donated a small bus for COVID-19 vaccine outreach around the community.

- 16,491 doses of COVID-19 vaccines were administered by the Health Department from July 1, 2021 – June 30, 2022.
- 3,338 doses of COVID-19 vaccines were administered by the Health Department from July 1, 2021 – June 30, 2022, for those under 18 years old.
- 400+ COVID-19 Vaccine doses given at 75 community-based events with 35 different community partners (non-profits, businesses, and agencies).
- 720 children ages 5 - 11 years old were vaccinated in November and December 2021 when the COVID-19 vaccine for that age group was initially authorized under emergency use.

Teton County COVID-19 Dashboard:

The Dashboard provides information and statistics on COVID-19 for Teton County, Wyoming. The Dashboard is updated each business day by our local epidemiologist and provides statistics regarding how many community members are fully vaccinated, the current case rate, COVID-19 inpatients at the hospital, and other important metrics.

Testing:

In November 2021, Teton County Health Department was able to add a rapid PCR COVID-19 testing location run by Curative, Inc. This rapid testing center became an additional resource to the community to access no-cost COVID-19 testing thanks to a partnership with St. John's Health, the Wyoming Department of Health, and Teton County.

Volunteers at the Vaccine Clinics:

Since the COVID-19 vaccination effort began in the winter of 2021, a total of 57 administrative volunteers covered 387 shifts, working a total of 1,548 hours. 365 volunteer vaccinators worked a total of 7,918 hours.

Team Rubicon and its volunteers assisted at the COVID-19 vaccine clinics from Spring 2021 through December 2021. A total of 170 volunteers worked 921 shifts totaling 4,136.5 hours.

HEALTH DEPARTMENT STATS

COMMUNITY PREVENTION

Strives to enhance the health and wellbeing of people living in the Teton County area through strategic prevention initiatives, multiple system collaborations, and community engagement.

PRIORITIZED AREAS OF CONCERN:

- 1) Suicide
- 2) Tobacco
- 3) Underage Drinking and Youth Marijuana Use
- 4) Adult Overconsumption
- 5) Opioid and Other Drugs

COMMUNITY OUTREACH:

- Deterra drug deactivation kit dissemination
- 500 Firearm safety locks distributed, through year-round access at Stone Drug, Teton County Library, Teton County Health Department, St. John's Health Wellness Center, Jackson Hole Community Counseling Center, Curran-Seeley, Jackson Police Department, Teton County Sheriff's Office, and during community outreach events
- Local and national mental health and crisis resource dissemination
- Awareness month programming, including May Mental Health Awareness Month, September Suicide Prevention and Awareness Month, November Survivors of Suicide Loss Day Of Remembrance, December National Impaired Driving Prevention Month
- Wyoming Quit Tobacco kit distribution
- Man Therapy access – interactive mental health campaign
- WY WE TALK, community access to conversation starters, resources, and education

COMMUNITY PREVENTION COALITION OF TETON COUNTY:

The CPCTC utilizes effective prevention strategies that strengthen community efforts to prevent suicide and reduce the problematic use of alcohol, tobacco, and other drugs. The Coalition is comprised of 14 governmental, non-profit, law enforcement, faith-based, and social service agencies, and is led by TCHD. The Coalition meets monthly to collaborate, communicate, and work with our partners and stakeholders to keep our kids and families safe and supported. CPCTC works to provide evidence-based strategies and programming through a diverse community prevention work plan.

SUICIDE PREVENTION SUBCOMMITTEE:

Is a subset of the CPCTC and is comprised of nine different community agencies and led by TCHD. The subcommittee meets monthly to understand issues concerning suicide and mental health as a way to take part in suicide prevention, help others in crisis, and change the conversation surrounding suicide.

- 1) Free evidence-based community trainings for suicide prevention
- 2) Survivors of Suicide Loss Day of Remembrance event
- 3) 988 Suicide and Crisis Lifeline launch
- 4) Three PSA videos created for firearm safety

stats

EMERGENCY PREPAREDNESS & RESPONSE

- The Public Health Response Coordinator (PHRC) continued to manage the COVID-19 Response in Teton County. The COVID-19 response was used to fulfill the public health preparedness and response program deliverables again this Fiscal Year. TCHD operated under an incident command structure during the COVID-19 response.
- 100% of staff are fit tested for N95 masks
- The PHRC worked with the Wyoming Department of Health (WDH) to order Strategic National Stockpile supplies, such as N95 masks, surgical masks, and COVID-19 testing supplies. Using criteria set by the WDH for testing supplies, local organizations that qualified were notified and supplies were then distributed.

ENVIRONMENTAL HEALTH

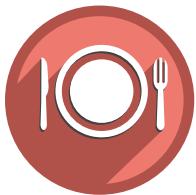

FOOD SERVICE INSPECTION PROGRAM:

- 395 Routine Inspections, 213 Follow-Ups, and 137 Other Inspections are conducted
- 40 new food service licenses were issued
- 13 Plan Reviews were completed
- There are 369 food establishments in Teton County. 163 establishments are categorized as high risk, 120 as medium risk, and 86 low risk.

Low risk – The establishment's operation involves coffee, carbonated beverages, and snack items such as a convenience or retail store. One routine inspection and one telephone inquiry annually.

Medium risk – Establishment has limited menu with minimal preparation of items that are cooked to order such as a sandwich shop or fast food. One routine inspection and one telephone inquiry annually.

High risk – Full service establishment where preparation process includes cooking, cooling, and holding or food is served to a high-risk population. These include schools, restaurants, and grocery stores. Two full inspections annually.

- The most common critical food violation was a failure to datemark ready-to-eat refrigerated food; the second most common was the improper cold holding of refrigerated foods.
- 193 Temporary Food Permits were issued

ENVIRONMENTAL HEALTH

POOL/SPA INSPECTION PROGRAM:

- There are 137 pools and spas in Teton County. Seasonal facilities require one inspection per year; year-round facilities require two inspections per year.
- 140 Routine Inspections, 88 Follow-Ups, and 9 Other Inspections were conducted
- 17 New pool and spa licenses were issued
- The most common pool and spa critical violations were record keeping and meeting minimum testing frequencies, followed by pool or spa water quality, usually having to do with sanitizer levels
- 5 Plan Reviews were completed

BODY ART ESTABLISHMENT INSPECTIONS PROGRAM:

- There are five body art establishments and five practitioners in Teton County. Body Art Establishments and Practitioners need to be inspected yearly

RADON PROGRAM:

- 164 radon test kits were distributed. 113 results were reported back. 44 out of 113 test results (39%) were above the EPA action level (4.0 pCi/L)

POOL/SPA/FOOD CLASSES:

- Three Certified Pool Operator courses were offered with 36 participants earning certification.
- No Food Manager Safety Courses were offered due to COVID-19. Online options were available and encouraged. Proctoring sessions were increased to twice a month to accommodate those who needed proctoring.

WATER TESTING PROGRAM:

- There were 2,201 drinking water samples tested. 145 tested positive for Total Coliform, and 24 tested positive for E.coli.
- There were 1,088 pool/spa water samples tested. 54 exceeded the bacteria threshold limit.

NURSING & CLINICAL SERVICES

COMMUNICABLE DISEASE PROGRAM:

- 1,043 Counseling and Testing visits (353 through Sexual and Reproductive Health)
- 90 STI treatments
- 537 HIV tests conducted
- HIV Case Management: 13 cases
- PrEP Case Management: 19 cases

The Teton County County Health Department introduced a case management model for PrEP services this fiscal year. Each person enrolled in the PrEP program had one nurse case manager who managed the client's prescriptions, appointments, and financial assistance applications. Each PrEP client requires an annual visit with a nurse practitioner, STI/HIV testing every 3 months, a new prescription every 3 months, and labs to monitor kidney function at least once per year. Some clients also require assistance with monthly medication delivery and applications for financial aid to access the medication. Teton County Health Department has collaborated with other county public health offices to facilitate testing for client's who don't live in Teton County but are enrolled in the TCHD PrEP program due to prescriber availability. Assistance was also provided to clients by case managers to help them establish PrEP care when they left Teton County. PrEP is an HIV prevention method where people who don't have HIV take daily medication to reduce their risk of getting HIV if they were exposed.

- PEP: 2 Cases referred for PEP (Post-exposure to HIV prophylaxis) treatment

SEXUAL AND REPRODUCTIVE HEALTH:

Teton County Sexual and Reproductive Health (SRH), formerly known as Family Planning, has continued to provide birth control, Well-Woman exams, and reproductive and sexual health care throughout the pandemic, with a steadily increasing number of clients.

- 2,047 in-person, phone, or telehealth appointments with Family Nurse Practitioners (FNPs) and clinic staff.
- Long-Acting Removable Contraceptives (LARCs)
 - 46 IUDs provided and/or inserted onsite
 - 35 Implants provided and/or inserted onsite
- CANCER PREVENTION: Clinic FNPs ordered 200 PAPs, 89 mammograms, 11 colonoscopies; 13 PAPs were abnormal and required further evaluation and or follow-up
- PREGNANCY: 197 focused discussions and/or tests conducted
- MENTAL HEALTH: Limited funds were made available for clients to access mental health services during the past Fiscal Year through the Communicable Disease Grant. 49 referrals were made to the counseling fund and 37 people accessed care. The funds were expended, and additional funds were obtained beginning August 2022 on behalf of donations from St. John's Health Foundation, the Community Foundation of Jackson Hole, and private donors.
- REFERRALS/APPLICATIONS:
 - 71 referrals to local providers for follow-up care
 - 179 clients assisted with applications to St. John's Health Foundation Women's Health Care Fund, WY Cancer Care, Bayer, Merck, Gilead, and others

NURSING & CLINICAL SERVICES

IMMUNIZATIONS PROGRAM:

- 1,205 vaccines other than COVID-19 vaccines and flu vaccines were given to those 18+
- 715 vaccines other than COVID-19 vaccines and flu vaccines were given to those under 18 years old
- 2,143 doses of flu vaccine were given. Of the total doses, 1,525 regular flu vaccines were given to adults 18+ and 618 high-dose flu vaccines were given to adults 65+
- 267 Flu vaccines were given to those under 18 years old

MEDICATION DONATION PROGRAM:

- From July 1, 2021, to June 30, 2022, Teton County donated \$1,244.29 of usable inventory

MATERNAL AND CHILD HEALTH (MCH) PROGRAM:

MCH nurses work to improve Maternal Mental Health in our community and statewide through programs such as Postpartum Support International (PSI) Wyoming, Stroll Wyoming, and the 2020 Mom Maternal Mental Health Public Health Fellowship.

- 576 total MCH visits for the year
- 177 clients served
- 329 visits assisting clients with financial assistance applications
- 56 Children's Special Health appointments
- 73 appointments for other services including child safety education, car seat installations, and lactation for non-home visiting clients
- 613 visits required an interpreter. These were mostly MCH visits, but also include Sexual and Reproductive Health and Immunization appointments
- 17 Strollers given out through Stroll Wyoming

Stroll Wyoming is a program created by one of our MCH nurses. The program provides strollers to mothers and families who may not otherwise have access to them. The hope is that through the gift of a stroller, these families can more easily access our beautiful outdoor trails and pathways, thereby improving their mental health and quality of life. In addition, the hope is to bring together the stroller recipients in a group setting to foster connection between new moms.

OUTBREAK INVESTIGATION:

- 44 cases of rabies concern follow-up (43 bats and 1 raccoon)

SHARPS DISPOSAL PROGRAM:

- Collected 26 total containers and 1,075 pounds of sharps. The increase in sharps disposal was due to the increased number of COVID-19 vaccines administered.

SEXUAL HEALTH OUTREACH ACTIVITIES AND EDUCATION:

- Sexual Health, STIs, and birth control method classes
 - JHHS Fall and Spring semester: 220 Students
 - Summit High School: 10 Students
 - Mountain Academy: 25 Students
- Creation of the Transgender Access to Care Guide: A list of local providers and resources for those seeking gender-affirming care
- Grindr sexual health resources profile created and monitored
- 74,129 Condoms distributed to 10+ locations
- Two gender-inclusivity sessions totaling 3 hours of instructions
- Intake paperwork revised to appropriately support gender diverse clients and Spanish speaking population
