## **Town/County Ice Rinks Close for the Season**

**March 1, 2024, Jackson Wyo.** – Due to consecutive days of above freezing temperatures and a forecast that includes snow and warming temperatures, the Teton County/Jackson Parks and Recreation Department has decided to close all Town/County ice rinks for the winter season, effective immediately.

All lights will be turned off beginning this evening and staff requests the community refrain from utilizing the ice rinks for the remainder of the season. Staff note that in past winters, they have been able to keep the ice rinks open until approximately March 15. Parks and Recreation would like to thank the community's active participation and utilization of the ice rinks this season.

For questions, please contact Parks Operations Manager Dan Bierman at [dbierman@teotncountywy.gov](mailto:dbierman@teotncountywy.gov).
